

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 3, 1997

LB 248

across the state...and there was much information, and I will be more than happy to give that to anybody to show you what the problems are. The third...in Nebraska on the hotline calls, in the nation, they put out an 800 number for people to call for help, Nebraska is third in the nation for calls to that hotline. In fact, the guys...

SENATOR COORDSEN: One minute.

SENATOR WITEK: ...cringed every time that hotline number is published because they want to be able to help these people, but people call this hotline and there is nothing they can do for most of them, other than put them on a waiting list at the end of that 800 number. So I still feel this is not an adequate amount of money into these funds, but we do appreciate at least that amount of increase. Thank you.

SENATOR COORDSEN: Thank you, Senator Witek. Senator Hilgert, please.

SENATOR HILGERT: Mr. President, members. Senator Witek, you may want to get the transcript to this because I am going to say you've got a real good point here, and I agree with you. Doesn't come too often, I guess, but I guess maybe this will start a habit here. Senator Schellpeper, could you yield to a question or two?

SENATOR COORDSEN: Senator Schellpeper.

SENATOR SCHELLPEPER: Glad to.

SENATOR HILGERT: I wasn't quite sure what you were referring to when you said they didn't think that they could spend it because Senator Witek had some good points about when you have addiction services, and different social programs, and you do have RFPs and grants and so forth. Can you talk about that a little bit?

SENATOR SCHELLPEPER: Well, first of all, Senator, Senator Witek wasn't...wasn't right because the 170 or 200 thousand plus 250,000 this first year. So they get almost 500,000 this first year, 450.
